

Cloud

Our multi-tenant cloud infrastructure is built for flexibility and elastic scalability—always ready to adapt to your changing needs.

Cloud Infrastructure Services

Experience cloud on your terms. Osmia infrastructure services include server, storage and network workloads that can be provisioned in seconds.

Osmia offers flexible, scalable solutions on a multi-tenant platform. Choose from a range of discounted, minimum-commitment contracts or straightforward pay-as-you-go pricing. Scale your cloud servers, storage and network up or down as needed—only pay for what you use.

Don't just take our word for it.
Start a free trial of the Osmia
cloud infrastructure platform.

Cloud Servers

Access automated server provisioning in just a few clicks. Ready to deploy whenever you need.

Cloud Storage

Your business needs to store ever-increasing volumes of customer and company data. Whether for real time analytics, backup, disaster recovery or archiving, it's time to choose a safe haven for your data.

Features

Every business is unique, and so are Radiata's solutions. Explore some of the unique features built into our package:

High-performance IaaS platform

We provide you with a reliable, high-performance Infrastructure as a Service platform.

Security and privacy

We don't compromise on data sovereignty. Our platform is hosted in our secure, private data centre facilities.

Predictable pricing

No hidden costs and no surprises. You'll avoid the ingress or egress fees charged by public cloud providers.

Intuitive user interface

Our interface is built for quick, effortless deployment. We designed our software with the customer experience in mind, so you can deploy what you need, when you need it.

World-class support service

Free round-the-clock technical support from experts who understand your industry inside and out.

Remove the headache

Focus on your core business goals, and we'll ensure you have the IT resources you need to get there.

Let a Radiata expert customise your cloud server and storage solutions.

Get in touch

If you want to learn more about our services, request a demo or find out how to reduce your IT infrastructure costs, please fill in your details and we'll contact you.
